**Multilateral Special Agreement RID 8/2021**  
**under section 1.5.1 of RID**  
**concerning environmentally hazardous substances of UN 3082**  
**and the requirement for performance testing of the packaging**

- (1) This agreement shall apply only to adhesives, paint and paint related materials, printing inks and printing ink related materials and resin solutions assigned to UN 3082 environmentally hazardous substance, liquid, n.o.s., packing group III in accordance with 2.2.9.1.10.6 as a consequence of 2.2.9.1.10.5<sup>1</sup> containing 0.025 % or more of the following substances, on their own or in combination:
  - 4,5-dichloro-2-octyl-2H-isothiazol-3-one (DCOIT);
  - octhiline (OIT); and
  - zinc pyrithione (ZnPT).
- (2) Notwithstanding the requirements of RID, these substances in (1) may be carried in steel, aluminium, other metal or plastic packagings, which do not meet the requirements of 4.1.1.3, when carried in quantities of 30 litres or less per packaging as follows:
  - (a) In palletized loads, a pallet box or unit load device, e.g. individual packagings placed or stacked and secured by strapping, shrink or stretch-wrapping or other suitable means to a pallet; or
  - (b) As inner packagings of combination packagings with a maximum net mass of 40 kg.
- (3) All other relevant provisions of RID shall apply.
- (4) This agreement shall be valid until 30 June 2023 for carriage on the territories of those RID Contracting States signatory to this agreement. If it is revoked before then by one of the signatories, it shall remain valid until the above-mentioned date only for carriage on the territories of those RID Contracting States signatory to this agreement which have not revoked it.
